

Oops! Has it been a year already?

It's hard to believe, but it's actually been over a year since our last visit.

Incredible as it sounds, it just goes to show, time flies.

We just wanted to touch base and ask if your carpets need a little refresher? Remember how clean and fresh your carpet felt after our last visit?

Over a year's worth of dirt and grime builds up a barrier that can seriously impact your carpet's ability to filter dust and other allergy aggravating particles. Are you ready to return your home to its healthiest, freshest and cleanest?

Reminder Cards. Here is an example of how the back, or mailing side, of your cards could be set up. A special note about postcards: Leave a 1/4" of space at the bottom on the mailing side for the postal service to stripe the card with their automation codes. Sometimes they will run a piece of tape on the front, but most often it is run on the back.

I know, you've been putting it off and who can blame you? Getting your carpets professionally cleaned can seem like a bit of a headache. You've got a lot to do and arranging to spend the day getting your carpets cleaned is just not that appealing, but it is necessary to maintain a healthy home environment for your family.

Now I realize you may have forgotten about my company and the services I offer, but I haven't forgotten about you. Below is a listing of my services.
