

Clean **Grout**, Brighten **Tile**, Dissolve **Soot**

The **Only** Tile and Grout Cleaner **You'll Ever Need**

Grout Devil is an alkaline, water-based cleaner specially formulated to dissolve layer after layer of soil and grease buildup, leaving grout lines clean and bright. If you perform hard surface cleaning jobs, this is one product you shouldn't be without.

Not only does Grout Devil make fast work of dull, dirty grout, it's also a highly effective all-around tile and hard surface cleaner. Try it on dirty floors with caked-on soil or grease. You'll be amazed at how quickly the most stubborn dirt and soils will disappear.

Grout Devil's uses don't end there. It can also be used as a powerful, pre-treatment additive that boosts the results of other cleaning agents. Simply add 8 oz to any ready-to-use cleaning solution and clean as usual. The results will blow you away!

Grout Devil even restores smoke-damaged hard surfaces to pre-loss condition and prepares hard surfaces for painting. Grout Devil's high alkalinity combined with aggressive solvents removes the smallest soil and soot particles preparing the surface for better paint adhesion.

*Do not use on furniture.
Keep away from glass and aluminum.*

Works GREAT on...

Stone/Tile/Grout

Cement/Concrete

Asphalt

MATRIX™

Dilutions and Usage Instructions

Dilutions:

- For hard surfaces: 4-32 oz per gallon of water
- To boost cleaning: 8 oz per gallon of ready-to-use cleaning solution.
- Spotter: 4 oz per 28 oz of water.

Usage Instructions:

1. Always pretest in an inconspicuous area for color fastness.

For Hard Surfaces

1. Dilute 4 oz of Grout Devil per gallon water to a maximum of 32 oz per gallon of water depending on severity of soiling.
2. Apply by spraying on.
3. Keep wet.
4. Scrub grout with brush if necessary.
5. For dirtier grout, repeat.
6. Wet vacuum and rinse with water.
7. To clean smoke-damaged walls and counters, first remove excess or loose dirt, grease, smoke or soot by using a chemical sponge. Then dilute and apply as described above.

To Boost Cleaning:

1. Add 8 oz of Grout Devil per gallon of ready-to-use cleaning solution.
2. Clean as usual.

To Use as an All Purpose Spotter:

1. Dilute 4 oz of Grout Devil per 28 oz of water.
2. Apply to spot. Agitate with bone spatula. Blot with clean white towel.

Tile and Grout: Before and After

Left and Below: A tile floor transformed by Grout Devil. Look at the difference not only in the grout, but also in the tile itself.

There are a couple of methods for achieving results like this. You can use a floor machine (like the Unipro H1715) and a special Scrub Grit Brush (RB-15CGB-EA) or a 1200 PSI portable (like the King Cobra 1200 or Ninja Warrior 1200) and a Spinner Hard Surface Tool (OE-SPN-EA)

Concrete: In Action

Above: Grout Devil at work on some very heavily stained and soiled concrete in a loading dock area. In this application a Spinner tool (OE-SPN-EA) is being used with a King Cobra 1200 Pro portable.
