

Matrix Outset Upholstery Pre-Spray

Eliminate the risk of over-scrubbing and over-wetting upholstery while dissolving tough soils with Matrix Outset Upholstery Pre-Spray!

People spend a lot of time lounging on the couch or in their favorite recliner, yet they hardly think of getting these pieces of furniture cleaned. When customers finally call you for a professional cleaning, you're faced with fabrics that contain a heavy and stubborn buildup of hair and body oils, food, beverages, pet hair, pet odors, and even cigarette smoke.

To solve this cleaner's nightmare, the chemists at Matrix developed Outset Upholstery Pre-Spray, a powerful, non-ammoniated product that dissolves tough upholstery soils for fast and easy rinsing.

Outset has a non-foaming formulation that gives optimum cleaning results and never leaves behind a sticky residue. Thanks to its potent cleaning properties that slice through the oily binders on upholstery soil like a hot knife through butter, Outset virtually eliminates the risk of over-scrubbing and over wetting.

Outset is non-toxic and requires no dilution; it's ready to use for your convenience.

- Dissolves tough upholstery soils
- Non-ammoniated
- Ready to use
- pH: 7.0–8.0
