[Link to Designated Lists for California Cleaning Product Right to Know Act 2017](#)

California SB-258

Product Name on Label
 Matrix Breakdown - IL-MX-BD

Chemical Name	CAS #	Function	Designated Lists
Water	7732-18-5	Diluent	No
Solvent Naptha	64742-95-6	Solvent	EU CMRs
Cumene	98-82-8	Non-Functional	CA Prop 65 - IARC Carcinogens - US NTP Carcinogens - CA NLs - CA TACs
Pseudocumene	95-63-6	Non-Functional	IRIS Neurotoxicants
Xylenes	1330-20-7	Non-Functional	IRIS Neurotoxicants - IRIS Carcinogens - ATSDR Neurotoxicants - CA MCLs - CA TACs - CA Non-Cancer Hazards
2-Butoxy Ethanol	111-76-2	Solvent	CA NLs - CA TACs - CA Non-Cancer Hazards
Tetrachloroethylene, Stabilized	127-18-4	Solvent	CA Prop 65 - EU CMRs - IRIS Neurotoxicants - IRIS Carcinogens - EPA Priority Pollutants - CA Priority Pollutants - CA MCLs - CA TACs - CA Non-Cancer Hazards
Potassium Hydroxide	1310-58-3	Alkali	No
Tall Oil Fatty Acid	61790-12-3	Solvent	No

We use a Julian date code system, 5 digit number. On the bottles for example you will see "19241", that means that bottle was ran on the 241st day of 2019.

On the carton we will put a number like this, N199 x05 19241. N199 is the formula number, x05 means that is our 5th batch of that product this year and then followed by the Julian date code.

Link to Batch code w/instructions or place here...
