[Link to Designated Lists for California Cleaning Product Right to Know Act 2017](#)

California SB-258

Product Name on Label
 Matrix Ink Away - IL-MX-IA

Chemical Name	CAS #	Function	Designated Lists
Water	7732-18-5	Diluent	N/A
Benzyl Alcohol	100-51-6	Solvent	EU Fragrance
2-Propanol	67-63-0	Solvent	CA Non-Cancer Hazards
2-(2-Ethoxyethoxy) Ethanol	111-90-0	Solvent	US NTP Reproductive or Developmental Toxicants - CA TACs
2-Ethylhexyl Sodium Sulfate	126-92-1	Surfactant	N/A
2-Ethyl Hexanol	104-76-7	Surfactant Ingredient	N/A
Formaldehyde	50-00-0	Preservative	CA Prop 65 - EU CMRs - IRIS Carcinogens - IARC Carcinogens - US NTP Carcinogens - CA NLs - CA TACs - CA Non-Cancer Hazards
Diethyl Hexyl Sodium Sulfosuccinate	577-11-7	Wetting Agent	N/A
Ethanol	64-17-5	Wetting Agent Ingredient	N/A
2-Ethylhexanol	104-76-7	Wetting Agent Ingredient	N/A
1,2-Propylene Glycol	57-55-6	Solvent	N/A
Sodium (C10-16) Benzylsulfonate	68081-81-2	Surfactant	N/A
Sodium Sulfate	7757-82-6	Non-Functional	N/A
Sodium Chloride	7647-14-5	Non-Functional	N/A
Terpene Hydrocarbons	5989-27-5	Solvent / Fragrance	N/A

We use a Julian date code system, 5 digit number. On the bottles for example you will see "19241", that means that bottle was ran on the 241st day of 2019.

On the carton we will put a number like this, N199 x05 19241. N199 is the formula number, x05 means that is our 5th batch of that product this year and then followed by the Julian date code.

Link to Batch code w/instructions or place here...
