[Link to Designated Lists for California Cleaning Product Right to Know Act 2017](#)

California SB-258

**Product Name on Label**  
 Matrix Impression - IL-MX-IUCC

Chemical Name	CAS #	Function	Designated Lists
Water	7732-18-5	Diluent	N/A
2-Butoxy Ethanol	111-76-2	Solvent	CA NLs - CA TACs - CA Non-Cancer Hazards
Ammonium Hydroxide	1336-21-6	Alkali Cleaning Agent	N/A
Diethylene Glycol Monobutyl Ether	112-34-5	Solvent	CA TACs
2,5-(Di-5-Tert-Butylbenzoyl) Thiophenate	7128-64-5	Optical Brightener	N/A

On the carton we will put a number like this, N199 x05 19241. N199 is the formula number, x05 means that is our 5<sup>th</sup> batch of that product this year and then followed by the Julian date code.

We use a Julian date code system, 5 digit number. On the bottles for example you will see "19241", that means that bottle was ran on the 241<sup>st</sup> day of 2019.

Link to Batch code w/instructions or place here...
