[Link to Designated Lists for California Cleaning Product Right to Know Act 2017](#)

California SB-258

Product Name on Label
 Matrix Oxidizer - IL-MX-O

Chemical Name	CAS #	Function	Designated Lists
Sodium Carbonate Peroxyhydrate	15630-89-4	Oxidizing Agent	No
Sodium Carbonate	497-19-8	Non-Functional	No
Sodium Silicate	1344-09-8	Non-Functional	No

We use a Julian date code system, 5 digit number. On the bottles for example you will see "19241", that means that bottle was ran on the 241st day of 2019.

On the carton we will put a number like this, N199 x05 19241. N199 is the formula number, x05 means that is our 5th batch of that product this year and then followed by the Julian date code.

Link to Batch code w/instructions or place here...
