

DESCRIPTION: Ape Solution is the newest advance in the evolution of high performance Low Moisture Cleaning Science. APE Solution is significantly different from multipurpose Low Moisture Cleaning chemicals in that it is designed specifically to maximize the Applied Physics that are functioning in bonnet cleaning environments. You will immediately notice that it is not as foamy as typical Low Moisture products. This is because foam retards the rapid migration of soil from the carpet into the cleaning pad. You will also notice that (especially when catalyzed) this product will remove soil that multiple cleaning by any other method could not begin to remove.

DILUTION: A Dilute 6.5 oz. APE solution per gallon of water for a ready to use solution. When boosting with APE Catalyst use 6.5 oz. Of APE Solution and 6.5 oz. APE Catalyst and the balance water for a ready to use solution.

APPLICATION: The back pack garden sprayer with fan tip is an ideal applicator for this type of cleaning. Clean in sections of approximately 75 square feet at a time. You do not want the solution to evaporate before going over it with your bonnet. Apply the solution to just wet the face fibers. This is approximately 1/2 oz. Per square foot of carpet or 1 gallon per 250 square feet of carpet. Adjust application volume for pile, weight, and density. Maximize performance by using Pro-Sorb two-stage bonnets.

ATTENTION: Read this safety information before using product. This product contains: Acrylate Copolymer CAS# 28205-96-1, Glycol Ether EB CAS# 111-76-2.

Personal Safety: Do not mix with any other product. Do not ingest (swallow). Do not get in eyes. Do not breathe dust or vapor. Avoid prolonged skin contact. Use only in well ventilated area. Wear protective gloves, goggles, and if vapor or mist is likely OSHA approved respirator. Never leave this product for the consumer to use or place product in an unlabeled container. Read and carry with you the MSDS available from your distributor or on line at www.proschoice.com.

First Aid: If ingested (swallowed) get immediate medical attention. For Eye Contact flush eyes with running water for 15 minutes and get medical attention. For Inhalation remove to fresh air and get medical attention if discomfort continues. For Skin Contact wash area with water and remove contaminated clothing.

Before Using Product: User must determine the suitability of this product for the intended use, and user assumes all risk and liability whatsoever in connection therewith. The manufacturer and seller make no representation or warranty, including merchantability expressed or implied. Sellers and manufacturers liability for any losses or damages resulting from any cause whatsoever shall in no event exceed the purchase price of this product. The foregoing cannot be altered unless officers of the manufacturer give their written agreement.
