

Improve your cleaning Do the job faster and improve drying times

Better results. Less work.

Grand Slam is a super-concentrated traffic lane cleaner that leaves carpets looking and feeling clean, soft and fluffy. It starts to dissolve the worst protein, food, grease, and oil on contact and keeps working until you rinse it away. The result: carpets with a like-new look that will really impress your customers.

Grand Slam works on both stain-resistant residential carpet and heavily trafficked, tough-to-clean commercial carpet. No more lugging around different products for different carpets, no more worrying about which products your techs are grabbing for a job – Grand Slam does it all.

It gets even better – unlike other TLCs out there, Grand Slam contains no fillers (*additives that bulk up a product but offer no cleaning benefits*), so it won't clog up your jets, add buildup in your solution lines, or corrode your machine. You'll find yourself spending less money on replacement parts and less time struggling with malfunctioning equipment. Plus, you and your customer will take notice how incredibly soft and fluffy Grand Slam's filler-free formula leaves the carpet.

Since Grand Slam's soil-busting formula is so effective, you'll need fewer wand passes to get the carpet clean. This means you'll be using less water to rinse the fibers, so the carpet will dry much faster (which will definitely thrill your customers!). Imagine that – fewer wand passes and happier customers!

These aren't the only reasons why so many of our customers use Grand Slam. It's also super concentrated with a dilution rate of 1:32, giving you 33 gallons of RTU solution from one container! That's three times the cleaning power of other ordinary traffic lane cleaners on the market today.

**1 Gallon makes
33 RTU Gallons!**

Precautions and Usage Instructions

pH: 9.5-9.8 • Safe for use on stain-resistant carpet

Dilutions:

- **Pump-Up Sprayer:** Mix 4 ounces per gallon of water for light to medium soil.
- **Hydro-Force Sprayer:** Mix 1.5 quarts per 3.5 quarts of water (*4-oz dilution*) or 2.5 quarts per 2.5 quarts of water (*50/50 or 6-oz dilution*).

Usage Instructions:

1. Always pretest in an inconspicuous area for color fastness.
2. Dilute 4 ounces of Grand Slam into pump-up sprayer and spray onto all carpet.
3. Use a groomer to groom in the pre-spray and allow a 10-minute dwell time.
4. Extract carpet using a portable or truck mount
