

# Two Products. One Powerful Formula. For Fast Breakdown of Tough, Greasy Soils!

MATRIX **Finish First** and **Confidence** Detergents

Grungy, greasy commercial or restaurant carpet can be a cleaner's worst nightmare. Sticky soils can be tough to remove, and if there's any residue left behind, the carpet will re-soil in no time.

To solve this dilemma, Matrix chemists developed a unique combination of additives that penetrate and break down oil- and water-based soils so they can be easily flushed away. They also added outstanding anti-resoiling agents specifically designed to keep carpet cleaner longer.

The fast-acting formula gives carpet the new look your customers love. Although it's strong enough for commercial cleaning sites, it's also safe for use on stain-resistant carpet in residential homes.

The chemists at Matrix put this powerful formula into two amazing products: **Matrix Finish First**, for those who prefer to use a powder, and **Matrix Confidence**, for those who'd rather use a liquid. Both leave carpet with the soft, natural feel your customers demand.

**Matrix Finish First is a powder that dissolves easily and won't cake up.** Built-in defoamers keep your vacuum line clear. And, since this formulation contains no corrosive materials, it won't damage your equipment. Plus, because it's waterless and comprised of 100% active ingredients you dilute to use, you'll save on shipping charges.

**Matrix Confidence gives you the power of a powder in liquid form.** It contains special citrus solvents and emulsifiers that boost its oil-dissolving abilities, giving you the maximum cleaning power available in a liquid.

# MATRIX™

## Dilutions, pH and Usage Instructions

pH: 9.5-10.5

### Dilution:

- **Truck Mount:** Dilute 1.5 pounds per 5 gallons of water for stock solution; meter at 3 GPM
- **Portables:** Dilute 1-2 ounces per 5 gallons of water
- **Yield:** 50 pounds makes up to 2,000 ready-to-use gallons; 1.5 pounds makes up to 60 gallons of ready-to-use solution

*Note: For optimum defoaming results, mix and use within 10 hours. After 10 hours, the product will still perform, but its defoaming ability will be diminished.*

pH: 10.0

### Dilution:

- **Truck Mounts:** Mix 32 ounces per 5 gallons of water to make stock solution
- **Butler Units:** Use straight; meter at 20 cc
- **Portables:** Dilute 2 ounces per 5 gallons of water
- **Yield:** One gallon makes up to 320 ready-to-use gallons

### Usage Instructions:

1. Vacuum carpet thoroughly.
2. Dilute pre-spray/traffic lane cleaner such as **Matrix Grand Slam** into a pump-up or inline sprayer and spray onto all traffic lane areas.
3. Use a groomer to groom in the pre-spray and allow a 10-minute dwell time. Do not allow pre-spray to dry on carpeting.
4. Put diluted detergent (*your choice of Matrix Confidence or Matrix Finish First*) into carpet extractor and clean carpet.
5. To neutralize carpet, dilute an acid rinse such as **Matrix All Fiber Rinse** into a pump-up sprayer, inline sprayer or extractor and apply to carpet.
6. Set air movers in room to speed dry carpet.
