

Works on BOTH Oil-and Water-based spots and stains.

Matrix Spot Shooter Plus

Matrix Spot Shooter Plus is a powerful, fast-acting spotter enhanced with surfactants and wetting agents. The forceful spray and non-foaming formula penetrate almost immediately to remove most spots with no rubbing or agitation required.

Spot Shooter Plus is truly unequaled in its effectiveness on both oil- and water-based stains. It eliminates all these and more:

- Ink
- Cola
- Grease
- Wine
- Oil
- Shoe Polish
- Coffee
- Lipstick
- Pet Stains
- Tar
- Urine
- Blood
- and Many Others!

Use Spot Shooter Plus on tough stains prior to carpet extraction for amazing results. This ready-to-use spotter is safe for use on stain-resistant carpet.

Note: Avoid contact with painted or wood surfaces. All carpets, especially wools, should be tested for colorfastness.

To test for colorfastness: Spray for 3 seconds on a hidden or obscure area of carpet. Allow area to dry completely (*at least 12 hours*). Do not dry in direct sunlight. Look for color change; if color is affected, do not use.

MATRIX™

An Example and Usage Instructions

Problem: Spray Paint on Carpet.

What you'll need: Matrix Spot Shooter Plus, Spotting Towel, Tamping Brush, Bone Spatula, and an Extractor.

What you'll need

Apply Matrix Spot Shooter Plus

Agitate

Tamp with tamping brush

Check progress

Rinse and extract

Spray Paint gone. Customer happy!

Dilution and pH:

- Dilution: Ready to use. • pH: 11.0-12.0

Usage Instructions/Fresh Spills:

- Shake well before using.
- Blot the excess liquid with a clean white absorbent cloth or paper towel.
- Spray the stain thoroughly, without saturating, while holding the can 6" above the spot. Blot the stain firmly with the absorbent material.
- Repeat steps 2 and 3 until the stain is gone.
- After the stain has been removed, sponge the area with cool water, and then blot area dry. Allow treated area to dry completely. Or, simply extract with hot water extraction as normal.

NOTE: Other cleaning products available may contain agents which can react to "set" a stain. By using this product first, you assure yourself of full stain removal. We cannot guarantee its effectiveness on stains which have been previously treated with another chemical agent. Stains created by acids, dyes, or similar agents are generally permanent and may not be affected by this product.

Usage Instructions/ Old & Stubborn Stains:

- Shake well before using.
- Spray the stain thoroughly. Wait sixty seconds for product to begin releasing the stain.
- Blot the stain firmly with clean absorbent material.
- Repeat steps 2 and 3 until the stain is gone.
- After the stain has been removed, swab the area with water using a clean wet cloth and allow to dry. Some stains may require the use of a soft-bristle brush, used in a gentle circular motion, to release the stain from the carpet fiber.
